

## PLANS OF TRAVEL FOR PRESIDENT

Taft Will Be a Busy Man During Next Two Weeks.

### GOING TO NEW HAVEN

He Will Spend Three Days Attending Yale Commencement.

Washington, June 11.—President Taft will spend three days at New Haven during Yale commencement week. He will leave Washington Sunday night, June 12, and on the following day will attend a meeting of the Yale corporation. He will remain in New Haven on Tuesday, the 13th, and will see his son Robert graduate on Wednesday, the 14th. Mrs. Taft will go with the President, and on the morning of the 15th they both will go to Beverly, where Mrs. Taft, her daughter, Helen, and the two boys, will remain for the summer. The President will be back in Washington the morning of the 16th to remain until the adjournment of Congress. These travel plans of the President indicate that he will not be able to attend the meeting of the National League of Republican Clubs to be held in New York June 24 and 25. It was at first thought that President Taft and former President Roosevelt would meet on this occasion, but the indications are now that neither will be present. President Taft has two out-of-town engagements next week. He will spend Wednesday at Marietta, O., attending the commencement of Marietta College, and will be back in Washington Thursday morning, the 16th. The President will leave again Saturday morning, the 18th, for Villa Nova, Pa., to receive from the famous Catholic college at that place the degree of doctor of jurisprudence. The afternoon of the 18th the President will go to Lincoln, Pa., to attend the commencement of Lincoln College, a negro institution. He will be back in Washington late the night. While President Taft is filling his engagements that day Mr. Roosevelt will be the recipient of a notable demonstration of welcome in New York City.

### PANIC AT A BULL FIGHT

Forty Persons Tossed and Trampled—Animal Finally Escapes.  
[Special to The Times-Dispatch.]  
Lisbon, June 11.—A fierce bull, of great size and strength, leaped over a balcony during a bull fight at Santarem and dashed

## Diabetes Cured Seventeen Years

The case of Mrs. Thos. Donohue illustrates the marvelous curative qualities of

### Warner's Safe Diabetes Cure

As she states in her own letter, Mrs. Thos. Donohue, of Red Lodge, Mont., suffered from diabetes, and was told by her physicians that she could not live over three months. This was seventeen years ago.

Warner's Safe Diabetes Cure made a permanent cure, and Mrs. Donohue says she is stronger now than she was for ten years prior to taking this great medicine. Her gratitude extolling the virtues of Warner's Safe Diabetes Cure is given in her own words:

"Seventeen years ago I was suffering from diabetes, which had troubled me for over ten years, and was given up by my doctors, who said I could not live over three months. I started to take Warner's Safe Diabetes Cure, and to-day I am a stronger and healthier woman than I was for ten years before I took the medicine."

There is no disease more dreaded than diabetes, for the reason that the supposition is that it cannot be cured; and it is most remarkable the letters received from men and women who say they had diabetes in its worst form and were completely cured and restored to health by Warner's Safe Diabetes Cure, which is one of the Warner's Safe Remedies, among them Warner's Safe Cure for the kidneys, liver, bladder and blood, which has done so much good the past thirty years, and Warner's Safe Pills for constipation and biliousness. These remedies are sold by druggists everywhere.

If you have any of the symptoms of diabetes send at once for a free sample bottle of the Diabetes Cure, or if you have kidney trouble ask for Warner's Safe Cure for the Kidneys, Liver, Bladder and Blood. State your case fully, mentioning having seen this liberal offer in the Richmond Times-Dispatch, and our doctor will send you sample and full directions how to treat yourself, free. All communications are answered by a woman doctor, WARNER'S SAFE CURE COMPANY, ROCHESTER, N. Y. The genuineness of this offer is fully guaranteed by the publishers.

amid the crowds of spectators.

Men, women and children were tossed, and the guards were unable to shoot the animal through the compact masses of the panic-stricken populace. The bull finally made for the principal exit, whence it escaped into the open country. More than forty persons were severely injured, and many of them having been trampled under foot.

## DREAM OF FUTURE FOR ELECTRICITY

All Waste Power in New York Will Be Utilized.

### MANY TO LOSE JOBS

Current Will Do Work Now Done by Thousands of Employees.

[Special to The Times-Dispatch.]  
New York, June 11.—"Do you see all those little wisps of steam rising over the house-tops to be dissipated in space? They represent potential energy, enough force to furnish every man, woman and child in Greater New York with one horse power. One horse power is the equivalent of eight servants. Harness all this power now going to waste and you will transform existing social and economic conditions."

So spoke Nicola Tesla, the electrical expert, as he gazed out of the window of his office on the nineteenth floor of a downtown skyscraper to-day.

Mr. Tesla had been asked by a reporter regarding the claims of the Long Acre Electric Light and Power Company, which has just won a favorable decision as to its right to do business, that it would harness all the waste power in New York City, store it away and then rear the power electricity to consumers at a price of one-half that now charged.

The company asserts it can utilize the waste power of expensive plants in hotels, apartment houses, department stores and downtown office buildings, besides using the water power at the headwaters of the Delaware and Susquehanna Rivers and the power plants now in operation at the mouths of the Pennsylvania coal mines, which will turn the coal at the mouth of the pit into electrical energy and transmit it to this city by wires or cables no thicker than a man's thumb.

### Put Many Out of Business.

It is claimed that electricity will not only displace the coal wagon and the ash cart, but will put the ice man out of business by cheapening the cost of refrigeration.

"All of this is perfectly feasible," said Mr. Tesla yesterday. "No one doubts that the city will increase its use of electricity as it works power. All the little steam jets to which I have referred will disappear, because electricity, drawn direct from the rivers and the coal mines, will take the place of the boilers and furnaces in our big office buildings and hotels."

"Electrical vehicles will become more common as batteries improve, and the power that now goes to waste can be stored for that purpose."

"Man is entering upon the electrical age," said Mr. Tesla, brushing back his shock of hair. "In a few years all the street cars and cabs, all the elevators and electric lighting systems, will be run by the power now going to waste in and out of the city."

"Electrical power can be transmitted to this city over wires at much less cost than coal can. It is also possible to create sufficient electricity at the mouth of a mine to displace all the coal tonnage of the so-called coal railroads."

"If all the energy we now see going to waste could be harnessed, three or four million horse-power could be saved."

### Onancock Social News.

[Special to The Times-Dispatch.]  
Onancock, Va., June 11.—Mrs. Margaret U. Franklin is at "Ker Place," the guest of her brother, L. D. Teackle Quimby.

Mrs. G. Fred Kelly and Miss Mary E. Kelly are visiting Mr. and Mrs. T. M. Scott, of Eastville.

Miss Marianna Jacob, of Cape Charles, is at the home of Mrs. E. D. F. Custis.

Mrs. Everett P. Parks and little daughter, Charlotte, have returned from a visit to relatives in Nassamond.

Miss Webster Coltrane and little Miss Nellie Bird are home from a trip to Emporia and Norfolk.

Thomas D. Drummond, recently the guest of his sister, Mrs. E. Fletcher, left Tuesday for his home in Norfolk.

Thomas S. Stiff, of Asheville, N. C., is at the home of his father, Rev. J. Willard Stiff.

Herbert S. Kellam, of Chicago, is visiting his mother, Mrs. Julia A. Kellam.

Miss Sarah C. Paulson has returned from a stay of several weeks in Richmond.

Miss Lucile Kellam, of Wachapreague, is the guest of her sister, Mrs. Everett P. Parks.

Rev. Oastie Fletcher, of Fort Thomas, Ky., is with his parents, Mr. and Mrs. E. Fletcher. He preached in Holy Trinity Church Sunday, at both the morning and evening services.

Miss R. L. Hopkins, Miss Virginia Hopkins, Mrs. J. P. L. Hopkins, Mrs. John S. Waples, Miss Sarah E. Waples, Mrs. E. B. Parker, Miss Virginia Morrell, Mrs. J. M. Fosque, Mrs. George Lee Fosque, Mr. and Mrs. E. T. Waters, Mr. and Mrs. W. F. Joyner, Miss Virginia Titlow, Miss Idelle McKee, and Miss Frances Taylor were present at the conferring of the crosses of honor at Accomac, Friday.

Cards have been received here announcing the marriage of Miss Joannette M. Mattfield, daughter of Mr. and Mrs. D. M. Mattfield, to John Pearson Fletcher, United States Army, at Christ Church, Mount Washington, June 1. Miss Mattfield was well known in the county, having frequently visited Miss S. E. Fletcher and Miss Charlotte Corbin.

Dr. Preston B. Parks has returned from an extended trip to Colorado, and other Western points, and will locate in Accomac for the practice of his profession.

James W. Powell and child, of Wilmington, N. C., are the guests of Mr. and Mrs. George H. Powell.

Judge and Mrs. Theodore F. Garnett, of Norfolk, are at the home of Dr. E. B. Finney.

J. W. LeCato, of New York City, will spend the summer with W. N. LeCato at his bungalow.

Mrs. E. R. Leatherbury is at Oak Hall, the guest of Miss M. Louise Trader.

Dr. Preston B. Parks has returned from an extended trip to Colorado, and other Western points, and will locate in Accomac for the practice of his profession.

Dr. Preston B. Parks has returned from an extended trip to Colorado, and other Western points, and will locate in Accomac for the practice of his profession.

## SEATTLE SUFFERS DISASTROUS FIRE

Loss Is \$1,000,000 and 500 People Are Homeless.

### TWENTY ACRES ABLAZE

Just as Firemen Despair, Saving Rain Begins to Fall.

Seattle, Wash., June 11.—Fire that broke out on the northern water front during the hurricane last night was carried by the wind to a district to the eastward thickly covered by wooden buildings, and in a short time twenty acres were ablaze, causing a loss of \$1,000,000 and rendering 500 people homeless.

Fire starting at Railroad Avenue and Battery Street, destroyed all the buildings on six city blocks and picked out a wooden house here and there in the surrounding district not entirely fire-swept. When the flames were at their height, burning brands set fire to houses several blocks from the main fire.

Alarming reports of loss of life were circulated, but so far as can be learned there were no fatalities.

Just as the firemen had begun to despair of saving a large and populous area east of Second Avenue, the wind suddenly abated and a brisk rain began to fall, materially aiding the fire-fighters in quenching coals blown to roofs of houses. So far as known three persons were seriously hurt, although many firemen were slightly injured. Houses were burned in a stable on Railroad Avenue.

### Funeral of Goldwin Smith.

Toronto, Ont., June 11.—The funeral of Professor Goldwin Smith was held to-day. A public service at Convocation Hall, Toronto University, was attended by representatives of the government and many people of every class. Cornell University was represented by President Schurman and Professor Corson. Among the floral tributes was a wreath from the Psi Upsilon Fraternity of the United States.

### Twedeale Elected.

New York, June 11.—Alonso Twedeale, of Washington, D. C., was elected president of the National Association of Comptrollers and Accounting Officers at the closing session of the association's annual convention here to-day. George A. Rex, of Pawtucket, R. I., was elected secretary, and Samuel M. Whitte, of Louisville, Ky., treasurer.

Birmingham, Ala., was selected as the place for the next convention in June, 1911.

Dr. Edmondson's Tansy, Pennyroyal, and Cotton Root Pills for women. Positive relief for all natural irregularities. Endorsed by thousands of sufferers. Trial box, 50 cents, with directions. Correspondence confidential. FRANK EDMONDSON & BRO. 3 Atlanta, Georgia.

## GREAT PROGRESS SHOWN IN DIXIE

No Abatement in Industrial Growth—Developments of Past Week.

[Special to The Times-Dispatch.]

Chattanooga, Tenn., June 11.—With the early days of summer there is no apparent abatement in the industrial activity of the South. The verified reports to the Tradesman show that there is a decided strenuousness in new construction, and the investment of capital in various lines of legitimate activity continues with apparent confidence. The development of natural resources, especially such as iron, coal, lumber and their by-products, there is a noticeable impetus such as might not have been expected at this season of the year when industries usually lag in sympathy with the thermometer. The Hat of new industries established in the South during the week ending Wednesday, as reported to the Tradesman, is an interesting study for those who are watching the industrial movement in the South. There are many and varied concerns in the list, and some big figures are also seen. For example, two new railroads are reported in Alabama; a cotton oil mill in Arkansas; two waterworks plants in Florida; three banks in Georgia; an iron working plant in Kentucky; lumber plants and banks in Louisiana; an electric railway and a steam railroad in Mississippi; two banks in North Carolina; mines in Oklahoma; cotton and lumber companies in South Carolina; several manufacturing companies in Tennessee; development companies and a new railroad in Texas; a power plant in Virginia; four oil and gas companies in West Virginia. In fact, the record of the past week in the South compared favorably with any seven days' period in recent years. The partial list for the week as compiled from reports to the Tradesman, is as follows:

**Virginia.**  
Alexandria—\$999,000 manufacturing company.  
Cloverdale—\$20,000 flour mill.  
Fife—Saw and stove mill.  
Graham—\$50,000 electric railway company.  
Index—\$100,000 brick and tile plant.  
Norfolk—\$50,000 reftx company; \$10,000 paper hanging company; oyster packing company.  
Richmond—\$1,000,000 power plant.  
Roanoke—\$10,000 reftx company.  
Scottsville—\$10,000 telephone company.  
Waynesboro—\$25,000 land company.  
Wise—\$50,000 investment company.  
**West Virginia.**  
Berwind—\$25,000 bank.  
Buchannon—\$10,000 oil and gas company.  
Clarksburg—\$20,000 oil and gas company.  
Fairmont—\$25,000 mines; railway company.  
Fayetteville—\$50,000 building and loan company.  
Martinsburg—Vinegar factory; creamery.  
Parkersburg—\$25,000 oil and gas company.  
Parsons—\$50,000 mines.  
St. Albans—\$25,000 oil and gas company.  
Wheeling—\$100,000 tile works.  
**North Carolina.**  
Booneville—\$50,000 bank.  
Cass—\$175,000 lumber company.  
Charlotte—\$25,000 publishing company.  
Kinston—\$30,000 manufacturing company.  
Merry Oaks—\$25,000 bank.  
Raleigh—\$10,000 insurance company.  
Salisbury—\$50,000 reftx company.  
Winston-Salem—\$125,000 construction company.

### GEMS THAT ARE TO AID AT CORONATION

[Special Cable to The Times-Dispatch.]  
London, June 11.—The orb and sceptre, which were placed on the late King's coffin will, like the crown, be used at the coronation of King George V. On the top of the gold orb is an extraordinary fine amethyst nearly an inch and a half in height, which forms the foot of a cross of gold set very thickly with diamonds.  
The sceptre, which is also known as Saint Edward's staff, is of beaten

gold, four feet and a half in length. The gold orb will rest in the King's right hand at the coronation, while the sceptre will be carried before him at that ceremony. The crown placed on the coffin is known as Saint Edward's crown, and is that with which the new King will be actually crowned. It was made for the coronation of Charles II, to replace the one broken up and sold during the Civil Wars.  
The imperial state crown, which is carried on the opening of Parliament by a sovereign in person and must not be confounded with Saint Edward's crown, weighs 35.25 dwts. and contains in the centre of a diamond Maltese cross the famous ruby said to have been given to Edward, Prince of

Wales, son of Edward III., by Don Pedro, King of Castile, a ruby which was worn in the helmet of Henry V. at the battle of Agincourt.  
The crown is studded with diamonds, pearls, rubies, sapphires and emeralds set in silver and gold, with a crimson velvet canopy with ermine border and lined with white silk.

Paris for Mrs. Leeds.  
[Special Cable to The Times-Dispatch.]  
London, June 11.—Mrs. William Leeds, who was to have entertained on a large scale this season, has decided to spend most of the summer in Paris. Mrs. Leeds means, however, to have a permanent residence of her own in London, and it is on the cards that she may eventually secure Mrs. George Cornwallis West's house in Mayfair.

## Housekeepers, Save Money!

To-morrow morning marks the beginning of another record-breaking sale of

### Household Necessities at N. Klein Sons

The entire stock is to be sold. The one sure, certain way to accomplish this is to make the prices low. This has been done to such an extent that it is almost beyond belief. Besides other things of special interest and unusual values we mention:

Tinware, Gas and Oil Stoves, Kitchen Utensils, Cutlery, Glass and Enamel Ware, Brushes, Buckets, Brooms, etc., etc.

The new company which has bought the old one will first dispose of all the original stock, then fill up with new goods; but they must sell every dollar's worth of the present stock first.

**TO-MORROW THE DAY KLEIN'S 620 E. BROAD ST. THE PLACE**

**WILLIAM M. MILLER, General Manager.**

The new company will continue the agency for the celebrated CLARK'S JEWEL GAS RANGE.  
Mr. John S. Childrey is with us, and will be pleased to see his friends.
